

Request for Registration Fee Waiver – COS 2025 Best Researcher Award

Dear COS 2025 Organizing Committee,

I am truly honored to have been selected for the *Best Researcher Award* at the 19th Edition of the Computer Scientists Awards (COS 2025). This recognition means a great deal to me as a researcher committed to advancing knowledge and contributing to the global scientific community.

Unfortunately, due to international sanctions and banking restrictions on Iran, I am unable to make international payments to cover the registration fee. These circumstances are entirely beyond my control and often prevent Iranian researchers from participating equally in global academic events.

In the spirit of scientific collaboration, equality, and inclusivity, I kindly request your consideration for a **registration fee waiver**, so that I may take part in COS 2025 without financial barriers. I strongly believe that scientific excellence should not be limited by political or economic obstacles, and your support in this matter would allow me to fully engage with the community and share my research contributions.

Thank you very much for your understanding and for supporting researchers facing such challenges. I remain deeply appreciative of this opportunity and hopeful for your kind consideration.

Sincerely,

Dr. Golnar Rahimzadeh
